PROJECT TITLE

DIGITAL PORTFOLIO FOR STUDENTS

AGENDA

1. Problem Statement
2. Project Overview
3. End Users
4. Tools and Technologies
5. Portfolio design and Layout
6. Features and Functionality
7. Results and Screenshots
8. Conclusion
9. Github Link

PROBLEM STATEMENT

There is a need for a dynamic digital portfolio solution that allows users to present their work in a personalized, interactive, and easily updatable manner. Such a platform should support various media types (images, videos, code, documents), highlight individual strengths, and be optimized for both desktop and mobile devices

PROJECT OVERVIEW

The Digital Portfolio Project aims to design and develop a personalized online platform that enables individuals to showcase their skills, projects, accomplishments, and professional background in a visually appealing and interactive format.

WHO ARE THE END USERS?

The end users of a digital portfolio include employers, recruiters, clients, and academic evaluators who assess the creator's skills and experience. It is also useful for peers and collaborators seeking to understand or work with the portfolio owner.

TOOLS AND TECHNIQUES

Tools: Wix, WordPress, Adobe Portfolio, Behance

Techniques: Use high-quality visuals, organize content clearly, and include interactive or multimedia elements to engage viewers.

POTFOLIO DESIGN AND LAYOUT

Clean, minimalist layout with a strong visual hierarchy.
Use grid-based design to showcase work clearly and professionally.
Include brief project descriptions and intuitive navigation.
